STAT

Dear [redacted]

STAT

Many thanks for your letter and the notice of Stephen Green's new book. Have you seen it yet? I fear that it does not enjoy a particularly good reputation around these parts. Whether this is deserved or not is another matter.

Thanks as well for the tip about [redacted] I had been trying to decide whether to contact her, and your letter has made that decision an easy one. I shall certainly give her your regards when we do get together.

STAT

Your several letters with their information on "Helms the man" have been made a part of the permanent historical record, along with all our other documents pertaining to the Helms years.

I would be remiss if I closed without repeating what good fun I've had talking and corresponding with you these past several months.

With best wishes,

Sincerely,

[Signature]
